

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF PENNSYLVANIA

UNITED STATES OF AMERICA	:	
	:	
VS.	:	CRIMINAL NO. 14-496-3
	:	14-516-2
NATHANIEL DA'MEIR COLES	:	

MOTION FOR COMPASSIONATE RELEASE
PURSUANT TO 18 U.S.C. §3582(c)(1)(A)(i)

Your Honor, I Nathaniel Da'Meir Coles come to you and this Honorable Court in hopes of obtaining compassionate release, or a sentence reduction from the term your Honor imposed, which was 240 months to be followed by 10 years of supervised release. Your Honor imposed this term of imprisonment on June 21, 2019.

Due to the current COVID-19 Global Pandemic running rampant Worldwide, and also through the B.O.P.. I submitted a request for compassionate release to the Warden here at F.C.I. Ray Brook on July 14, 2020. It was denied by the Warden on July 27, 2020. (Attachment C)

Your Honor, my mother Ms. Neveada Coles is 65 years of age, and has been a cigarette smoker for over 50 plus years. She has Type-II Diabetes, Spinal issues, Two Knee Replacements, and shes in need of a Hip-replacement surgery. She has numerous medical issues (See Attachment A.), she lives in a 3-bedroom house all alone. My mother is barely able to care for herself, shes barely able to make it up and down the stairs on her own. So she mainly stays on the bottom floor, and sleeps on the sofa in the living room. My mother is risking a highly fatal outcome if she were to be stricken with the COVID-19 virus, which has a high probability of death rate among African Americans. My mother has No Primary

Care Provider, and is in a detrimental need of my home assistance. I am my mothers only son who she can rely on, and if I were to be granted compassionate release, I would take the responsibility to be my mothers Primary Care Giver and Provider.

Your Honor Sir, now with the current COVID-19 Pandemic virus infections increasing on a daily basis here through this particular Institution F.C.I. Ray Brook, where as, today the prison is on a isolation lockdown because of over 70-inmates have the COVID-19 virus, with staff members alike confirmed to have the virus as well, which constitutes a dramatic change in my incarceration in the FBOP, being now subjected to health risks of infection, at a height of 5/11 and a half, weighing 236 pounds with a BMI of 33.5 draws the line of whats considered obesity. I'm extremely concerned and fearful for my health and well being particularly over COVID-19's affinity for persons of color. And as a former smoker of a pack of cigarettes a day for 20-plus years, I have contracted weak lungs by this regrettable bad habit, which means that I am exponentially more vulnerable than most people to severe consequences of this virus. I live in an environment of close contact while being in FBOP custody that is hygienically not healthy and unsanitary maintained. At this prison here at F.C.I. Ray Brook, where experiencing constant COVID-19 infections since March of 2020, the majority of these infections continue to go under reported.

Your Honor Sir, I fear that even with the minimum pre-existing conditions that I suffer from, and the congested enviroment that I live in, I will fall victim to the COVID-19 virus. I feel the chance of that happening to me are very high, if I were to be infected with COVID-19, which has a postively high death rate among African Americans, having lived in prison for the past 6 years and 5 months with my age of 38 years old, my obesity and weak lungs increase my risk of complications and maybe even the chance of death, if I were to be infected with this deadly COVID-19 virus. If I were to be granted compassionate release, I would pose no threat to society, or will be a danger to the community. I have served nearly a decade of time in prison, and I have aged and matured in that time, and do not pose a threat to the publics safety or anyone in the community.

Your Honor Sir, at this present moment through the grace of God, I am Blessed to still have my mother who is 65 years of age. My mother has been standing by my side throughout my whole period of incarceration, and she's praying for the chance of seeing me again in freedom before she moves on.

Your Honor, I would like to stress to you in the most humblest way that I am no longer the same individual that I was those many years ago. I have matured immensely since that time. And I am exponentially wiser with my age. There is not one day that passes by that I do not regret the decisions I made, and caused me to be in Federal prison. Drug dealing and the individual that I chose to associate myself with has been the worst mistake of my entire life. Although I am not making any excuses for my unlawful actions. I take full responsibility for my role in the crime that was committed. I understand that I cannot change what I've done in the past. But I can assure you that I am a changed and better person today. And I share my wisdom willingly with all of the young inmates whom seem to gravitate towards me. I mentor numerous inmates in the ways of living rightously, and how not to become the person that I was.

Futhermore, I have taken advantage of several educational, vocational, and rehabilitative programs while I've been serving time in the FBOP. (see Attachment B) To date I have completed the Electronics Technicians Association trade course, Suicide Companion Program but was unable to complete the training course due to being in isolation lockdown for COVID-19 protocol. I've also completed a Work-Keys National Career Readiness course, National Parenting Program, Anger Management, Drug Abuse Education Course, The Addicted Brain: Psychology & Neuroscience Program, Nutrition Made Clear course, as well as additional programs. I am also enrolled in the Alternative to Violence, Victim Awareness, which is part of the 100-hour Reentry Prerelease Program in the First Step Act.

Your Honor Sir, as you can see I have been doing everything right since my incarceration. I have been programing, and I have not incurred any misconducts or disciplinary actions during my 6-years and 5-months of this term of imprisonment, "which is very unheard of in the FBOP. Even the Staff here at F.C.I. Ray Brook

admire the way that I conduct myself, and I've been told that I am an exemplary example of a model inmate. I am even respected by all who comes in contact with me (that's inmates and staff alike). I have already completely satisfied my financial obligations that were ordered by the court.

If I were to be released, I would self-isolate at my mother's residence. Should this Court grant this motion to reduce sentence, I will reside with my mother Neveada Coles at 1608 Upland Street, Chester, PA 19013. My mother lives in a 3-bedroom home alone. My family and many people of the community are extremely supportive of my re-entry into the community. I have immediate employment available at Supreme Hair Styles and Unisex as a barber at 804 Upland Ave., Upland, PA. While working as a barber, I'll also be in search to futher my career in the field of Electronics.

Through the First Step Act 18 U.S.C. §3582(c)(1)(A)(i), this Court and your Honor has the authority to broadly interpret what constitute a Compassionate Release, and grant my motion for a sentence reduction, and show compassion on the grounds of the COVID-19 Pandemic, and my positive prison adjustment.

CONCLUSSION

Judge McHugh Your Honor Sir, I pray that you give serious consideration to this sincere motion seeking a sentence reduction and/or compassionate release to be more broadly interpreted, where as any extraordinary or compelling reasons can be considered by the sentencing court, when reviewing a compassionate release motion. And if that is so, my complete transformation and characteristic maturation, my mothers medical condiction, and my own vulnerability to this COVID-19 Pandemic in the FBOP. Last, as a non-violent drug offender without any violent past convictions, I ask Your Honor to consider my "extraordinary and compelling" reasons to grant this Compassionate Release Motion.

Respectfully Submitted,

Nathaniel Da'meir Coles

TRULINCS 71667066 - COLES, NATHANIEL DA-MEIR - Unit: RBK-D-B

FROM: Warden
TO: 71667066
SUBJECT: RE:***Inmate to Staff Message***
DATE: 07/14/2020 12:42:02 PM

Your Unit Team will review your request.

>>> ~^!"COLES, ~^!NATHANIEL DA-MEIR" <71667066@inmatemessage.com> 7/14/2020 12:33 PM >>>
To: Mr. Lovett
Inmate Work Assignment: Rec. Wknd.

Dear warden Lovett,

I am writing this request in hope that you could file a motion for relief under (18 USC 3582) for the FIRST STEP ACT/Compassionate Release/CARES ACT/Home Confinement on my behalf.

My mother is 65 years of age, and is extremely high risk for the COVID-19 VIRUS. She has Type 2 Diabetes, Spinal Issues, and 2 Knee Replacements. And in need of a hip replacement also. She lives in a 3 Bedroom House all alone, and is unable to make it up and down the steps not too well. So she has to sleep on the sofa in the living room. My mother has EXTREMELY NO Primary Care Provider, and she is in need of my assistance. If at all necessary, I can get my mother to provide her medical records for proof.

Thank You!

INMATE REQUEST TO STAFF MEMBER
Warden's Response

Name: Coles, Nathaniel Da-Meir

Reg. No.: 71667-066

Unit: Delaware B Unit

Your request for Compassionate Release/Reduction in Sentence based on the First Step Act and the fact you are the sole caregiver for your elderly mother, who is currently experiencing health problems, was reviewed.

BOP Program Statement No. 5050.50, Compassionate Release/Reduction in Sentence: Procedures for Implementation of 18 U.S.C. §§3582(c)(1)(A) and 4205 (g), provides guidance on the types of circumstances that present extraordinary or compelling reasons, such as the inmate's terminal medical condition; debilitated medical condition; status as a "new law" elderly inmate, and elderly inmate with medical conditions, or an "other elderly inmate"; the death or incapacitation of the family member caregiver of the inmate's child; or the incapacitation of the inmate's spouse or registered partner. Your request has been evaluated consistent with this general guidance.

To be considered eligible under Non-Medical Circumstances, you must either have a child who is suddenly without a family member caregiver due to that caregiver's death or incapacitation or your spouse or registered partner is incapacitated and you are the only available caregiver. Accordingly, your Compassionate Releases/Reduction in Sentence based on the First Step Act, and your mother's health concerns, do not meet this specific criteria; therefore, your request is denied at this time.

If you are not satisfied with this response to your request, you may commence an appeal of this decision via the administrative remedy process by submitting your concerns on the appropriate form (BP-9) within 20 days of the receipt of this response.

S. Lovett, Warden
